Winter

Fazerdaze

Now you only call me up at night time
Just when I'm about to close shut eye
Think about you, empty in the daylight
Hold me with your words, you know the lines right
Told me that you love me and it's all right
Making up excuses, do they sound right?
It's ok, Yeah it's fine

Oh, let's leave the day wide open
All if you could get a moment
Hope this goes the way I'm hoping
So call me when you get a moment

Waited for you but you made me sit tight
I was hoping it would differ this time
Held me under till I stopped trying
Then pulled me up in time
Go and act like everything's fine

Cut the corner back around to mine
You told me not to worry, I tried
Now you're being distant all day, all night
You're late I'm on time
Walk out the door unresolved, never mind

Oh, let's leave the day wide open
All if you could get a moment
Hope this goes the way I'm hoping
So call me when you get a moment

Oh, let's leave the day wide open
All if you could get a moment
Hope this goes the way I'm hoping
So call me when you get a moment

(Oh) Waited for you but you made me sit tight
I was hoping it would differ this time
You (Oh) held me under till I stop trying then pull me up in time
No It's not, everything's fine

(Oh) Said you're coming back around to mine
Told you not to worry, I tried
Forget it, now I'm distant all (Oh) day, all night, you were never on time
Walk out the door unresolved, never mind
